EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Bauer on July 5, 2005.

The application has been amended as follows:

in claim 54, after line 11, the following indented paragraph is inserted: "information transfer apparatus for transferring the charging arrangement information stored at the subscriber information store from the subscriber information store to the packet data interface apparatus;"

claim 56 is canceled.

Drawings

2. New corrected drawings are required in this application because the drawings filed on 4/27/05 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose a combination of steps in a method for performing charging in a telecommunications system, including generating by means of a packet data interface apparatus usage information messages indicative of the usage of the packet data communication by the first terminal, transferring the usage information messages to a charging apparatus, transferring the charging arrangement information stored at the subscriber information store from the subscriber information store to the packet data interface apparatus, and storing at the packet data interface apparatus the charging arrangement information received from the subscriber information store for the first communication terminal, wherein the step of generating usage information messages comprises generating the usage information messages dependent on the charging arrangement information for the first communication terminal, as in claim 29; the prior art likewise fails to disclose a combination of elements in a telecommunications system, including packet data interface apparatus generating usage information messages indicative of the usage of the packet data communication services by the first terminal, message transfer apparatus for transferring the usage information messages to a charging apparatus, information transfer apparatus for transferring the charging arrangement information stored at the subscriber information store from the subscriber information store to the packet data interface apparatus, wherein the packet data interface apparatus is adapted to receive and store the charging arrangement information for the first communication terminal and to generate the usage information messages dependant on the charging arrangement information for the first communication terminal, as in claim 54.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sam Bhattacharya whose telephone number is (571) 272-7917. The examiner can normally be reached on Weekdays, 9-6, with first Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lester G. Kincaid can be reached on (571) 272-7922.
